

Welcome to The Manor House Nursing Home

Dementia Care | General Nursing Care | Mental Health Care | Respite Care

Care tailored
to your needs

About Us

At The Manor House, we understand that everyone is unique. Every individual who chooses to live here is provided with their own personal care plan, created through a collaborative assessment alongside a team of professionals, together with their relatives.

The care, happiness and dignity of our residents is always our number one priority.

The Manor House is made up of three purpose-built units, each designed to meet the unique needs of its residents. The Village is a newly built facility, specifically designed for adults with dementia. CDL (Coppenhall, Dunston and Levedale units) is designed for the care of people with complex needs, including mental health conditions and the Hyde Lea Unit for General Nursing Care.

We will advise where within the home we recommend your relative resides, based on their specific needs.

Our Care

Our team of Qualified Nurses, Senior Healthcare Assistants, Healthcare Assistants and Activities Coordinators provide 24-hour care for adults with varying mental and physical health needs on a permanent or respite basis.

Supporting you every step of the way

We understand how it feels to make the decision to move a loved one into a Nursing Home, which is why we are on hand to support and guide you through the change and answer any questions you may have.

An environment
to thrive in

Activities

Our extensive activities programme has been created to ensure our residents can take part in a daily group activity such as singing, bingo, games, and crafts. Residents are regularly assessed and, if for any reason, involvement in a group activity is not suitable, the team will ensure their needs are accommodated via tailored one to one activity.

The Grounds

The home is nestled within safe & secure, beautiful gardens including a sensory garden, barbeque area and patios. We have potting zones and greenhouses as well as animal petting zones for regular animal therapy.

“The Manor House Nursing Home truly cared with kindness for our Mum and the whole family. Everyone in the Manor House treated Mum, in the last stages of her dementia, with true love and one to one care and kindness.”

TM, DAUGHTER OF RESIDENT

Here for You

We understand that the decision to place a loved one into a nursing home is not an easy one. We are also here for you and will help you every step of the way. You will be guided through the journey from developing the personal care plan through to moving in and on-going support.

Come on in, our doors are open.

We know how important visiting loved ones is. As well as someone's private bedroom, you can enjoy making use of the Hub, sensory and landscaped gardens or communal lounge areas when visiting and join us at our regular events.

Our Facilities include:

The Hub with Café for Dining & Events | Sensory & Herb Garden
Patios for Ground Level Rooms | Communal Lounges & Dining Rooms
Hair Salon | 125 Beds | Bariatric Facilities

“At every stage and every dealing with the staff, we were treated with care, concern, and compassion, not just mum but the rest of the family too.”

FH, SON OF RESIDENT

Working hand in hand
to support you

Find a new way of
living that supports
your needs
